Dear Mr. Regna:

Reference is made to our Hazardous Waste Permit Application for a storage facility at General Electric Company Electronics Park, Syracuse, New York, EP ID #NYD059385120 and your letter of February 3, 1984 to B. L. Pickard covering the review of our permit application for this facility.

Based on over three years operating experience, we have evaluated our program needs and determined that a long-term hazardous waste storage facility capable of storing waste beyond the 90-day accumulation time is not required. We are capable of operating within the 90-day time period allotted for unpermitted facilities.

Accordingly, we hereby withdraw Parts A and B of our application referenced above.

Sincerely,

Dayton E. Hardwick, Manager
Relations & Utilities Operation
